HRSA Announced a New Enhancing Maternal Health Initiative

Health Equity

02.29.24

In late January, HRSA announced a new *Enhancing Maternal Health Initiative*, *which* will further HRSA's maternal health work to address maternal mortality and maternal health disparities. The program will be operated in conjunction with state and local health officials, community organizations, and others. HRSA believes the initiative will maximize its investment and impact in maternal health for communities identified as "high need," including areas in AZ, AL, GA, IL, KY, MD, MI, MO, MT, NC, OR, and DC.
