# President Trump Signs EO On State Preemption of AI

Digital Health 12.16.25

On December 11, President Trump signed the Ensuring A National Policy Framework for Artificial Intelligence, an Executive Order designed to further his Administration's effort to preempt state regulation of artificial intelligence and challenge state laws in the space through enforcement actions by a multiagency review task force operating under the Attorney General. The order directs the Department of Justice to create an AI Litigation Task Force to challenge state-level regulations and calls for a 90-day review by the Commerce Department to identify laws that could restrict innovation or affect federal funding. For health care organizations, this could impact telemedicine, data governance, and state oversight of AI tools.
